

BOOK OF SUPER AWESOME DEVELOPERS

NOVEMBER 25, 2016

FIND YOUR NEXT **WEB DEVELOPER**

ABOUT THE PROGRAM:

DecodeMTL's immersive bootcamp is a hyper intensive 8-week program focused on web development. Students with completely different backgrounds code day and night in their journey to becoming a web developer.

Our graduates have built full-stack applications from scratch utilizing their skills in JavaScript (Node, React), mySQL, HTML, CSS, and a variety of other tools/frameworks. But most of all, they have learned to think like developers, how to break down problems, and how to look for solutions.

MEET OUR GRADS:

All of our grads come from different backgrounds. With a variety of different personalities, skills, and previous work experience, you are likely to find that perfect candidate for your needs. Take a look through this booklet to find out more about our graduates.

HOW TO HIRE:

Internship: Hire them for 3 months as an intern with the possibility to convert to full-time.

Full-Time: Make them a permanent member of your team.

Contract: Hire them for short-term or long-term contracts.

QUESTIONS?
